## Power tools for trade & industry

Magnetic Core Drill

## GBM 50-2

Precise, efficient and convenient - the ideal solution for metal drilling

### The most important data

|                            |         |
|----------------------------|---------|
| Rated input power          | 1,200 W |
| Drilling diameter in steel | 50 mm   |

**Order number** 0 601 1B4 0L0

## Technical data

### Additional data

|                                 |                |
|---------------------------------|----------------|
| Rated input power               | 1200 W         |
| Bit holder                      | MT 2 - DIN 228 |
| Voltage, electrical             | 220-240 V      |
| No-load speed, 1st gear         | 50 – 250 rpm   |
| No-load speed, 2nd gear         | 100 – 510 rpm  |
| Weight                          | 14.7 kg        |
| Drill spindle connecting thread | MT 2 - DIN 228 |

### Drilling range

|                            |       |
|----------------------------|-------|
| Drilling diameter in steel | 50 mm |
|----------------------------|-------|

**BOSCH**

Invented for life

# Product data sheet

Power tools for trade & industry

---

## Advantages:

- Convenient, durable, highly efficient and safe: Laser technology offers a fast target set-up, powerful motor for durable and efficient precise drilling, power supply cut-off system to prevent electric shock
- Smart HMI system: Service display alert for preventive maintenance (carbon brush change) and load alert indicator for a long tool lifetime
- Ideal for tough metal core drilling: High magnetic force gives a strong support to the drilling
